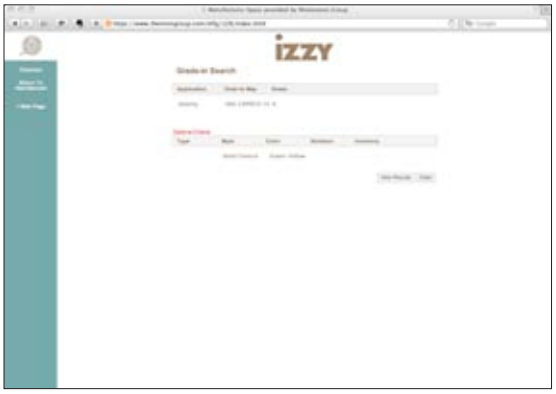
Momentum Textiles Selector

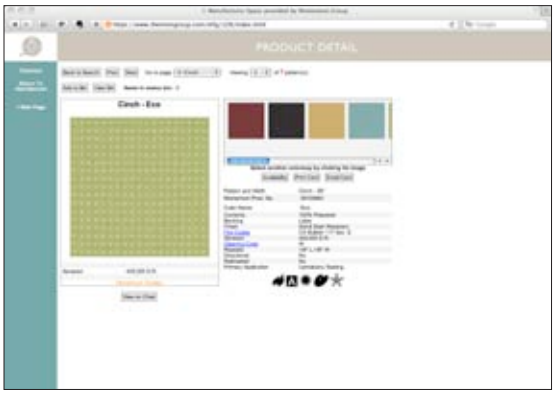
Ever wish you could see what a chair will look like in a particular upholstery color or pattern before you buy it? Well, now you can. We've teamed up with Momentum Textiles to offer our customers a new online mapping tool that lets you apply any approved Momentum Textile to the seating product of your choice. It's design-driven, customer focused, and izzyeasy at its best. Here's how it works.

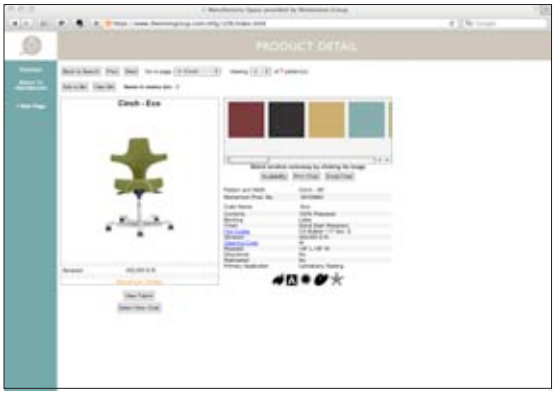
From the izzydesign.com website, choose the Color & Materials tab in the navigation bar on the right.

Click on the Momentum Textile Selector link. You will be linked to the database of approved Momentum Textiles available on HÅG Seating products.

Simply complete the query on the screen. It's easy and intuitive and helps you narrow down your options based on grade, material type and style, color and durability. It even tells you how much inventory is in stock!

Upon deciding on the preferred Momentum pattern/color, click on the link "View on Chair". Your selected HÅG Seating product will be displayed in your chosen Momentum Textile upholstery. All material specifications are shown here as well. You can even save the picture or e-mail to a friend.






Now that's what great collaborations are all about.
